NOTICE OF PROPOSED ADMINISTRATIVE ORDER AND OPPORTUNITY TO COMMENT

RESPONDENT: Joseph Parisi
Environmental Services Inc.
Yaphank, NY 11980

SITE/FACILITY: Environmental Services Inc.
Yaphank, NY 11980

PERMIT NUMBER: Not applicable

DOCKET NO. SDWA-02-2011-8508

PUBLIC NOTICE NO. 2011-41

COMPLAINANT: Dore LaPosta, Director
Division of Enforcement and
Compliance Assistance
U.S. EPA, Region 2
290 Broadway
New York, NY 10007-1866

PUBLIC COMMENT PERIOD: 30 days from publication date

SUMMARY & DESCRIPTION OF VIOLATION: EPA is providing notice of a proposed administrative order for alleged violations of the Safe Drinking Water Act (Act). EPA is also providing notice of opportunity to comment on the proposed administrative order.

Part C of the Safe Drinking Water Act (SDWA) specifically mandates regulation of the underground injection of fluids through wells to ensure that the quality of underground sources of drinking water is protected. Section 1422 of the SDWA requires the EPA to administer UIC programs in states that do not have approved UIC programs. New York has not acquired primacy over the UIC program pursuant to 40 C.F.R. Part 147 and, therefore, the EPA administers the program in New York.

The Complaint addresses wells that are owned/operated by Joseph Parisi, (Respondent) at Environmental Services Inc. 40 Zorn Boulevard Yaphank, NY.

Respondent, without authorization by rule or permit, injected industrial wastewater into drains leading to injection wells. Respondent therefore failed to comply with 40 C.F.R. §144.11.

The fluids were injected into or above a local aquifer, which is an underground source of drinking water (USDW), as defined in 40 C.F.R. §144.3 and §146.3. Respondent's actions may have caused a violation of primary drinking water regulations or may otherwise adversely affect the health of persons and, therefore, Respondent is in violation of 40 C.F.R. §144.12.

RELIEF SOUGHT: Respondent shall be ordered to cease injection of industrial wastewater and submit an approvable Remediation/Closure Plan and, as applicable, a complete request for authorization to inject which includes best management practices to eliminate industrial discharges to storm water drywells, and any other drywells receiving industrial discharges. Respondent shall remediate and, as applicable, close the well(s) in accordance with the approved Remediation/Closure Plan, or eliminate the industrial discharges in accordance with a Best Management Practices Plan under an approved request for authorization.

FOR FURTHER INFORMATION: Douglas McKenna, Chief, Water Compliance Branch, EPA Region 2, 290 Broadway, 20th Floor, New York, New York 10007 (212) 637-3767.

Persons wishing to receive a copy of EPA's Administrative Procedures, or review documents filed in these proceedings, comment upon the proposed assessments, or otherwise participate in any of the proceedings, should contact the person named above. Unless otherwise noted, the administrative record for these proceedings is located in the EPA Regional Office identified above, and the files will be open for public inspection during normal business hours. All pertinent information submitted by the Respondent is available as part of the administrative record, subject to provisions of law restricting public disclosure of confidential information.
